

What Is HEDIS®?

HEDIS® (Healthcare Effectiveness Data and Information Set) consists of a set of performance measures utilized by more than 90 percent of American health plans that compare how well a plan performs in these areas:

- Quality of care
- Access to care
- Member satisfaction with the health plan and doctors

Why HEDIS® Is Important

HEDIS® ensures health plans are offering quality preventive care and service to members. It also allows for a true comparison of the performance of health plans by consumers and employers.

Value of HEDIS® to You, Our Providers

HEDIS® can help save you time while also potentially reducing healthcare costs. By proactively managing patients' care, you are able to effectively monitor their health, prevent further complications and identify issues that may arise with their care.
