WELLCARE OF KENTUCKY'S PRIOR AUTHORIZATION LIST

Prior Authorization (PA) Requirements

This WellCare of Kentucky prior authorization list supersedes any lists that have been distributed to our providers. Please ensure that older lists are replaced with this updated version. Authorization changes will be denoted with a **℞** symbol for easy identification. Requirements that have been edited for *clarification only* will be denoted with a **Ⓢ** symbol.

All services rendered by nonparticipating providers and facilities require prior authorization. Primary care physicians (PCPs) must direct enrollees to participating specialists when available. It is the responsibility of the provider rendering care to verify that the authorization request has been approved before services are rendered.

A searchable Authorization Lookup Tool is available on our website at <https://provider.wellcare.com/Provider/Login>.

WellCare of Kentucky supports the concept of the PCP as the “medical home” for its enrollees. PCPs may refer enrollees to network specialists when services will be rendered at an office, clinic or free-standing facility. PCPs may use a prescription or referral form of their own, or use the “Create New Referral” link on the WellCare provider Web portal to produce a document that can be given to the enrollee and/or faxed to the specialist. The reason for the referral and the name of the specialist must be documented in the medical record. **The specialist must document receipt of the request for a consultation and the reason for the referral in the medical record.** No communication with the plan is necessary for participating providers.

Prior authorization for Early Periodic Screening, Diagnostic, and Treatment (EPSDT) Program diagnosis and treatment services and EPSDT special services: Except as otherwise noted by the health plan or in 907 KAR Chapter 1 or 3, an EPSDT diagnosis or treatment or an EPSDT special service that is not otherwise covered by the Kentucky Medicaid Program shall be covered subject to prior authorization if the requirements of subsections (1) and (2) of section 9 of 907 KAR 11:034 are met. Requests for services will be reviewed to determine medical necessity without regard to whether the screening was performed by a Kentucky Medicaid provider or a non-Medicaid provider.

Urgent Authorization Requests and Admission Notifications – Call 1-877-389-9457

- Notify the plan of unplanned inpatient hospital admissions within **1 business day of the admission** (except normal maternity delivery admissions). Telephone authorizations must be followed by a fax submission of clinical information – by the next business day.
- Prior Authorization is not required for births or the inception of NICU services and notification is not required as a condition of payment.
- Outpatient authorizations may be requested by phone for urgent and time-sensitive services when warranted by the enrollee’s condition. Please include **CPT and ICD-10 codes** with your authorization request. Standard authorization requests may be submitted [online](#) or via fax to the numbers listed on the associated forms located [here](#).
- **Web submissions** are faster, and if the procedure requested meets clinical criteria, the Web provides an approval that can be printed for easy reference.
- Obtaining authorization does not guarantee payment, but rather only confirms whether a service meets WellCare’s determination criteria at the time of the request. WellCare of Kentucky retains the right to review benefit limitations and exclusions, beneficiary eligibility on the date of the service, the medical necessity of services and correct coding and billing practices.
- Please remember to consult the authorization lookup tool on the provider portal and obtain appropriate prior authorization. Failure to obtain prior authorization where required may result in denial of the claim.
