PRIOR AUTHORIZATION LIST

Prior Authorization (PA) Requirements

This prior authorization list supersedes any lists that have been distributed to our providers. Please ensure that older lists are replaced with this updated version. Authorization changes are denoted by a **P** symbol for easy identification. Requirements that have been edited for *clarification only* are denoted with a **!** symbol.

All services rendered by nonparticipating providers and facilities require authorization with the exception of family planning education and counseling, in-office visits for family planning, childhood immunization administration and emergency transportation and services. Primary care physicians (PCPs) must refer members to participating specialists. It is the responsibility of the provider rendering care to verify that the authorization request has been approved before services are rendered.

Nonparticipating public health departments no longer require authorization for the following services: lead screening, TB screening, HIV screening, HIV/AIDS care coordination and family planning.

To avoid unnecessary claim payment issues, you must bill with the authorization number.

Urgent Authorization Requests and Admission Notifications – Call 1-800-322-6027 and follow the prompts.

- Notify the plan of unplanned inpatient hospital admissions **within one business day from treatment of emergency condition** (except normal maternity delivery admissions). Telephone authorizations must be followed by a fax submission of clinical information.
- Outpatient authorizations for urgent and time-sensitive services may be requested by phone when warranted by the member's condition. Please include **CPT and ICD-10 codes** with your authorization request. Standard authorization requests may be submitted [online](#) or via fax to the numbers listed on the associated forms located [here](#).
- [Web submissions](#) are faster, and if the procedure requested meets clinical criteria, the Web provides an approval that can be printed for easy reference.
- Obtaining authorization does not guarantee payment, but rather only confirms whether a service meets Missouri Care's determination criteria at the time of the request. Missouri Care retains the right to review benefit limitations and exclusions, beneficiary eligibility on the date of service, the medical necessity of services and correct coding and billing practices.
