

Insulin Will Now Be Affordable All Year Long

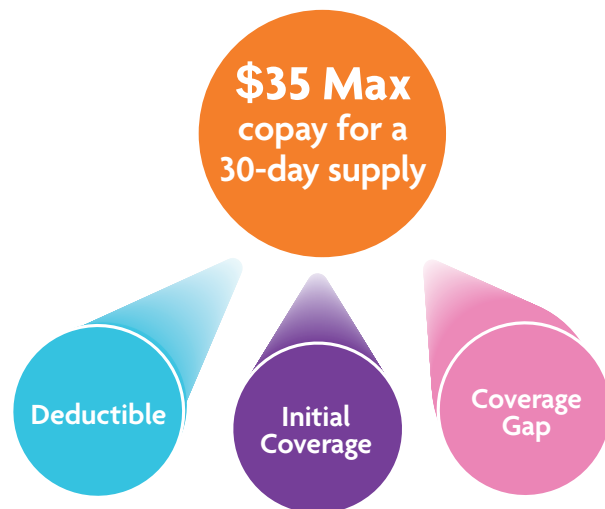

Great news! WellCare is taking the sting out of insulin costs.

Starting in 2021, WellCare will introduce a new program that limits the cost of insulin medications to **no more than \$35 per prescription for a 30-day supply**. Members enrolled in participating WellCare plans will be eligible to receive this benefit. **You don't need to do anything.** You get these savings automatically just by being a member of our eligible plans.*

In the past, under Medicare Part D, out-of-pocket costs for insulin medication varied depending on the coverage phase you were in. That meant the price you paid may have been unpredictable throughout the year. This new program lets you take advantage of **consistent and stable co-pays all year!**

Taking your insulin is critical to your health, and we want to make taking your medications as prescribed a little easier.

**Benefit applies to covered insulins for members who do not receive Extra Help (Low Income Subsidy). See Evidence of Coverage for complete details.*

WellCare Health Plans, Inc., is an HMO, PPO, PDP, PFFS plan with a Medicare contract and is an approved Part D Sponsor. Enrollment in our plans depends on contract renewal.

Our plans use a formulary.

WellCare Health Plans, Inc., complies with applicable Federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, or sex.
