I understand:

- My authorization is voluntary.
- I authorize the health plan to discuss and disclose my PHI to an authorized representative appointed in this form.
- I may revoke this authorization at any time by providing my written revocation to the health plan. I may call the toll-free number on my membership identification card and request a revocation form to assist me in submitting my written request.

Submitting a revocation form will not revoke any other authorizations to release information that I have provided to the health plan. Revocation of this authorization will not affect any action that the health plan has taken, or any PHI that the plan has already released.

- The health plan may not condition the provision or treatment or payment for my care on my signing this document.

- This authorization form will expire 2 years following the termination of my enrollment.
- My authorized representative is not a health care provider or another business subject to federal or applicable state privacy laws. Those privacy laws may no longer protect my PHI and my authorized representative may further disclose my information without my authorization.
- The information authorized for release may include records that may indicate the presence of a communicable or non-communicable disease.
- The information authorized for release may include protected health information and/or records related to mental health. Release of mental health records or psychotherapy notes may require consent of the treating provider or a court order.
- The information authorized for release may include drug/alcohol abuse treatment records. This category of medical information/records is protected by federal confidentiality rules 42 CFR Part 2. The federal rules prohibit anyone receiving this information or record from making further release unless further release is expressly permitted by the written authorization of the person to whom it pertains or is otherwise permitted by 42 CFR Part 2. A general authorization for the release of medical or other information is not sufficient for this purpose. The federal rules restrict any use of the information to criminally investigate or prosecute any alcohol or drug abuse patient. As a result, by signing below, I specifically authorize such records included in my health information to be released.
- I have the right to get a copy of this form after it has been signed.
