

Wellcare 2023 Enhanced Payment for Influenza Vaccine Codes

Thank you for keeping our Medicare members healthy and ensuring they receive their flu vaccination by the end of 2023. Wellcare (the “Plan”) wants to show our appreciation by offering additional reimbursement to our Primary Care Physicians (PCPs) who submit detailed claims for each patient visit related to the Centers for Medicare & Medicaid Services (CMS) Star measure: annual flu vaccine. We are offering an enhanced payment of \$20 per code for select codes (including CPT Category II codes) with dates of service from October 1, 2023, to December 31, 2023.

Receive payment in March 2024

Claims must be received by February 28, 2024. Then a one-time payment will be sent out in March 2024. Other medical services submitted are also eligible for enhanced payment but may require a longer payment cycle and must be received by February 28, 2024. The Enhanced Payment Program is in addition to the compensation arrangement in your participation agreement in our provider network and the other Wellcare incentive programs you participate in.

Please refer to the detailed listing of measures and codes for specific services eligible for enhanced payment.

If you have questions about the Enhanced Payment Program

Please contact your [Provider Engagement Administrator](#) or call Provider Services at 1-855-538-0454, Monday through Friday from 8 a.m. to 8 p.m. Eastern.

Select Medicare Codes Eligible for Enhanced Payment
