

Medicaid Redetermination Resumes Soon and will Impact Medicare Benefits for some of your Patients.

TALK TO YOUR D-SNP PATIENTS ABOUT ANNUAL MEDICAID ELIGIBILITY RENEWAL.

If they no longer are eligible for Medicaid, let them know they have options.

Your patients look to you for expert advice.

Patients that are enrolled in a Dual Eligible Special Needs Plan (D-SNP), where they receive both Medicaid and Medicare benefits, must verify their Medicaid eligibility to continue dual coverage.

Let your patients know:

- 1** A letter will be sent a few months before their Medicaid anniversary date with instructions for verifying their eligibility. They can also visit <https://msp.scdhhs.gov/annualreviews/> to get the details on their renewal.
- 2** Their dual Medicare benefits are dependent on their Medicaid eligibility.
- 3** If their eligibility is confirmed, they can continue their existing coverage.
- 4** If they are no longer eligible for Medicaid, they can explore our Marketplace and Medicare options.

Thanks for all that you do for the health and well-being of your patients. If you have any questions, email us at atcnetworkrelations@centene.com or call **1-855-538-0454** today.
